

Above: Moses, Sammy, Andrew & Tabby are students at Chepkoilel, and key persons in our project team

Right: teacher training in ICT solutions for forestry education

## IMPROVING FORESTRY EDUCATION IN KENYA

HEI-ICI project 2011-2012

<https://wiki.uef.fi/x/9w79S>

Left & right: Involving school pupils in the development of a forestry game

The objectives of our joint project include...

- ✓ Reviewing the B.Sc. forestry curriculum
- ✓ Implementing Quality Assurance procedures
- ✓ Modernizing pedagogics & ICT use
- ✓ Training of teachers (e.g. Moodle)
- ✓ Developing an online seminar on bioenergy
- ✓ Supporting teaching in forest measurement
- ✓ Providing equipments & tools (e.g. Suunto)
- ✓ Developing a game to raise awareness in young pupils on the crucial roles of forests

## IMPROVING FORESTRY EDUCATION IN KENYA
