

Tervetuloa! | Welcome!

Welcome!

In this project students will create digital teaching materials about Sexual Education.

The teaching materials will be used by primary school teachers, who want to work with pupils about Sexual Education.

This page helps you to navigate this Wiki work platform.

If you have any questions about UEF Wiki resources and tools, please check this **UEF Wiki tutorial**: [Wikialueen hallinnointi](#)

On the left side of the home page, you'll see 3 main tabs:

Decide your project - there you (and your group) should provide information about the project you want to develop.

Project instructions - there you will have information about how to organize your final project, so it will be successfully uploaded to UEF blog. And most important, your ideas will be shared!

Project requirements - there you can find essential requirements you need to guarantee the best ways to develop your teaching materials.

On the right side of the home page, you can also find the **blog of this work environment**.

With the blog, you can present yourselves, and share information with your colleagues.

Please, contact the teaching assistant in case of any question or further information:
