

Blas Mola-Yudego

Recent and Current Courses

University of Eastern Finland

Research Methodology in Forest Sciences 3.5 ECTS

Production and Energy Use of Wood Biomass 6 ECTS

Academic skills in Forest Sciences 1.5 ECTS

Bioenergy markets and policies 6 ECTS

Kazakh National Agrarian University

International Winter School: management of natural resources

Swedish University of Agricultural Sciences

Production of non-food biomass 3 ECTS

Saint Petersburg State Forest Technical University

Economics of local and global wood biomass production for energy 5 ECTS

North West Agriculture & Forestry University

Research methods applied to wood biomass production (est.) 3 ECTS

About Me

My name is Blas [Mola Yudego](#), I am Senior Researcher in Biomass and Bioenergy Production at the University of Eastern Finland, and Associate Professor at the Swedish University of Agricultural Sciences. My main field of research has been bioenergy production systems, including forest biomass, fast growing plantations and pellet production. Currently, my interest covers two main areas: modelling biomass production and [forest governance](#).

Find more information about me and my activities at [Research Gate](#).
